### **DETAILED ACTION**

This action responds to the Amendment filed 18 October 2004.

#### ***Election/Restrictions***

1. Claims 1 and 9 are generic and allowable. Accordingly, the restriction requirement as to the encompassed species is hereby withdrawn and claims 14-17, directed to the species of the specific monomers used to form the homeotropic alignment liquid crystal film are no longer withdrawn from consideration since all of the claims to this species depend from or otherwise include each of the limitations of an allowed generic claim.

In view of the above noted withdrawal of the restriction requirement as to the linked species, applicant(s) are advised that if any claim(s) depending from or including all the limitations of the allowable generic linking claim(s) be presented in a continuation or divisional application, such claims may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 44 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

#### ***Allowable Subject Matter***

2. Claims 1, 2, 9, 10, and 14-19 are allowed.
3. The following is an examiner's statement of reasons for allowance:

Examiner finds the amendments combined with Applicant's arguments to overcome the applied art of record.

Art Unit: 2813

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
